DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 19-27, 37-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 19, the preamble states: "monitoring the behavior of the vehicle wheels," meaning at least two wheels, then it is stated that the two diagonally opposite wheels lose traction and provides a third wheels with sufficient traction. How does the third wheel that has not been detected to have or not the traction will be provided with the torque?

As per claim 37, it is indicated in line 3, "the prior 15 seconds." Which is unclear, because it has not been mentioned before 15 seconds.
